ATHEROSCLEROSIS

VOL. 104, NO. 1,2 DECEMBER 1993

CONTENTS

Cited in: Biological Abstracts – Chemical Abstracts – Current Contents/Life Sciences – Excerpta Medica Abstract Service – Index Internacional de Cardiologia – Index Medicus – Informedicus – PASCAL M

Review article

Familial defective apolipoprotein B-100: a review, including some comparisons with familial hypercholesterolaemia
N.B. Myant (UK) 1

Research papers

Requirement for mevalonate in acetylated LDL induction of cholesterol esterification in macrophages
F. Bernini, G. Didoni, G. Bonfadini, S. Bellosta, R. Fumagalli (Italy) 19

Platelet inhibitory functions of aortic endothelial cells. Effects of eicosapentaenoic and docosahexaenoic acids
C. Bénistant, F. Achard, G. Marcelon, M. Lagarde (France) 27

The relation of atherosclerotic lesions to antemortem and postmortem lipid levels: the Bogalusa Heart Study
D.S. Freedman, W.A. Wattigney, S. Srinivasan, W.P. Newman III, R.E. Tracy, T. Byers, G.S. Berenson (USA) 37

Prevalence of coronary heart disease and associated risk factors among elderly Finnish men in the seven countries study
M. Tervahauta, J. Pekkanen, P. Kivinen, J. Stengård, M. Jauhiainen, C. Ehnholm, A. Nissinen (Finland) 47

Expression of intercellular adhesion molecule-1 on rat vascular smooth muscle cells by pro-inflammatory cytokines
U. Ikeda, M. Ikeda, Y. Seino, M. Takahashi, T. Kasahara, S. Kano, K. Shimada (Japan) 61

Accelerated cholesteryl ester transfer in noninsulin-dependent diabetes mellitus
J.D. Bagdade, J.T. Lane, P.V. Subbaiah, M.E. Otto, M.C. Ritter (USA) 69

Inhibition of smooth muscle cell proliferation and DNA synthesis by Vasoprin — a biologic response modifier
N. Vlasic, L. Ramos, A. Mittelman, M.B. Stemerman (USA) 79

Apolipoprotein(a) genetic polymorphism and serum lipoprotein(a) concentration in patients with peripheral vascular disease
J. Pedro-Botet, M. Sentí, T. Auguet, X. Nogués, J. Rubiés-Prat, C. Aubó, F. Vidal-Barraquer (Spain) 87

Eicosapentaenoic acid and docosahexaenoic acid suppress the proliferation of vascular smooth muscle cells
T. Shiina, T. Terano, J. Saito, Y. Tamura, S. Yoshida (Japan) 95

Identification of a functional receptor differing from the LDL receptor that catabolizes chylomicron remnant in Hep G2 cells
K. Hayashi, K. Nakashima, M. Saeki, H. Kurushima, J.-i. Kurokawa, Y. Kuga, S.-i. Nomura, Y. Ohkura, H. Ohtani, K. Tanaka, G. Kajiyama (Japan) 105

An acceptor splice site mutation in intron 16 of the low density lipoprotein receptor gene leads to an elongated, internalization defective receptor
P. Lombardi, M.J.V. Hoffer, B. Top, E. de Wit, J.A. Gevers Leuven, R.R. Frants, L.M. Havekes (Netherlands) 117

Contents continued on p. 238

This journal is printed on acid-free paper.

0021-9150(199312)104:1/2;1-D

Contents continued from back cover

Protection of low-density lipoprotein against oxidative modification by high-density lipoprotein associated paraoxonase
M.I. Mackness, S. Arrol, C. Abbott, P.N. Durrington (UK) 129

Protein kinase C pathway and proliferative responses of aged and young rat vascular smooth muscle cells
E. Porreca, R. Ciccarelli, C. Di Febbo, F. Cuccurullo (Italy) 137

Effect of lovastatin on the secretion of very low density lipoprotein lipids and apolipoprotein B in the hypertriglyceridemic Zucker obese rat
S.E. Kasim, J. Elovson, S. Khilnani, R.U. Almario, K.-L.C. Jen (USA) 147

Phenotypic expression of familial hypercholesterolaemia in Central and Southern Tunisia
M.N. Slimane, H. Pousse, F. Maatoug, M. Hammami, M.H. Ben Farhat (Tunisia) 153

Variability in cholesterol content and physical properties of lipoproteins containing apolipoprotein B-100
N. Abate, G.L. Vega, S.M. Grundy (USA) 159

Longitudinal associations between plasma viscosity and cardiovascular risk factors in a middle-aged French population
C. Bonithon-Kopp, J. Levenson, P.-Y. Scarabin, M.-T. Guillanneuf, J.-M. Kirzin, A. Malmejac, L. Guize (France) 173

Serum apolipoprotein(a) correlates with growth hormone levels in Chinese patients with acromegaly
K.S.L. Lam, R.W.C. Pang, E.D. Janus, A.W.C. Kung, C.C.L. Wang (Hong Kong) 183

Arterial permeability dynamics and vascular disease
M.H. Friedman, D.L. Fry (USA) 189

Familial lecithin:cholesterol acyltransferase deficiency: further resolution of lipoprotein particle heterogeneity in the low density interval
M. Guérin, P.J. Dolphin, M.J. Chapman (France, Canada) 195

Copper- and malondialdehyde-induced modification of high density lipoprotein and parallel loss of lecithin cholesterol acyltransferase activation
J.-C. Mazière, I. Myara, S. Salmon, M. Auclair, J. Haigle, R. Santus, C. Mazière (France) 213

Letters to the Editors

A possible protective role of veins against atherosclerosis
F. Cordopatri (Italy) 221

Plasma lipoprotein(a) concentrations are not elevated by cardiopulmonary bypass
D.J. Moliterno, M.E. Jessen, K. Schueler, J. Cohen (USA) 223
